## Professional Summary

Highly skilled and results-driven Software Engineer with over 2 years of hands-on experience in the software development industry. Proficient in designing, developing, and deploying innovative software solutions to solve complex problems. Demonstrated expertise in utilizing cutting-edge technologies and programming languages to create efficient and scalable applications.

Proven track record of successfully collaborating with cross-functional teams and stakeholders to deliver high-quality projects on time. Possess a strong aptitude for problem-solving, coupled with a detail-oriented approach, ensuring the delivery of reliable and user-centric software.

With a passion for continuous learning and staying up-to-date with industry trends, I am committed to delivering excellence in software development and contributing to the growth and success of forward-thinking organizations.

## Work Experience

Jan-2022 To Currently Working

### LogicEra, UAE

Experienced remote professional at LogicEra with a proven track record of delivering impactful projects using .NET Core. Currently engaged in project-based roles, including the successful implementation of "DCAS Paperless" – a comprehensive system of internal websites tailored for employees and administrators, all developed on .NET Core. These websites cater to diverse needs such as managing shift schedules, responding to emergencies in locations like airports and hospitals across Dubai, and overseeing employee and training records. Additionally, I have spearheaded the development of the "SOS Esefni" API project, which leverages .NET Core to enable efficient course and training management for volunteers. This initiative serves as a rapid response solution for various emergencies, akin to ride-hailing applications, ensuring a swift and organized volunteer mobilization process.

Aug-2020 To Nov-2021

### Tech Tire Solutions, Karachi

At Tech Tire Solution, I played a pivotal role as a PHP developer in the creation of a dynamic website similar to Food Panda. Collaborating with a skilled team, I contributed to the design and development of an innovative platform that streamlined food ordering, payment processing, and delivery management. This experience showcases my ability to thrive in a fast-paced environment and deliver user-centric solutions in line with industry trends.

## Education

2018 - 2021

**UNIVERSITY OF SINDH, Jamshoro**  
BS IN SOFTWARE ENGINEERING

2015 - 2017
